## Customer Reviews

Like the title says, nice arrangements which are pretty close to the difficulty level described. However, I don't get the binding. It sticks out too much in the back. You really have to work at flattening it. Hopefully, I'll find time to get it spiral bound at a Kinkos or something. I wish publishers of piano books would spiral-bind their stuff to begin with.

I am always looking for nice piano arrangements that can be learned fairly quickly and this works for me. Also has a nice variety of pieces.

Gave this as a gift. Very nice

I was disappointed when I reviewed this product. Unfortunately, you can't see the actual songs or titles when you buy them, and found that there weren't any that I could use for my intermediate

students. Also found that there were not any old standards, so cannot use this book.
