Hell Divers: The Hell Divers Trilogy, Book 1

Synopsis

More than two centuries after World War III poisoned the planet, the final bastion of humanity lives on massive airships circling the globe in search of a habitable area to call home. Aging and outdated, most of the ships plummeted back to Earth long ago. The only thing keeping the two surviving lifeboats in the sky are Hell Divers - men and women who risk their lives by diving to the surface to scavenge for parts the ships desperately need. When one of the remaining airships is damaged in an electrical storm, a Hell Diver team is deployed to a hostile zone called Hades. But there's something down there that's far worse than the mutated creatures discovered on dives in the past - something that threatens the fragile future of humanity.

Book Information

Audible Audio Edition

Listening Length: 10 hours and 11 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Blackstone Audio, Inc.

Audible.com Release Date: July 19, 2016

Technothrillers #66 in Books > Science Fiction & Fantasy > Science Fiction > Dystopian #74

in Books > Audible Audiobooks > Science Fiction

Customer Reviews

I keep sitting down to write this review, and I keep stepping back, unsure of what words could possibly describe this book. I hope you can bear with me, and if my words aren't enough, just buy the book and read it for yourself. Then we can talk about it. ;) So, it turns out that Sansbury Smith isn't a newbie author. He's actually got a huge arsenal of books under his belt. I got really excited after finishing Hell Divers to read something else by him, and I certainly have a lot to choose from. But... I can also see why I may have overlooked his books in the past. They all look very... military? I've never really been interested in reading books that involve a heavy military plot, but if they're anything like Hell Divers, then you bet your knickers that I'll be reading them! His Extinction Cycle series comes highly recommended, so I think that sounds like a good place to start. The intensity

level of this book is off the charts! There is literally danger at every turn, and you know that not every character is going to make it out alive, because that would be too unbelievable, and quite honestly, this just isn't one of those books. There won't be any rainbows or fluffy kittens, and I actually prepared myself for a devastating ending. Because seriously. This book delves into the dark. It's violent and bloody, and definitely for a mature audience. Even saying that, I never felt like it crossed that line into the gratuitous. The story called for gore, plain and simple. There are multiple POVs told in the third person, but essentially, the main character is X. He's brooding and mysterious, recovering from his own emotional baggage. He has suffered loss, just like every other remaining member of the human race. Radiation poisoning and cancer, malnutrition and poverty.
