Sahlawayhi 3: Graded Stories For Beginners (Arabic Edition)

By Ahmed H. Khorshid

Synopsis

This is the first-ever series of graded stories for beginning adult learners of Arabic as a foreign language. It is based on the following principles: gradual introduction of vocabulary and structure, in context. frequent recycling of both. a huge volume of comprehensible input. The 24 stories in this reader are divided into six levels of four stories each. Levels 1-3 for beginners, levels 4-6 for intermediate students.

Language: English

ASIN: B00UJWRVTM

Best Sellers Rank: #206 inÂ Books > Audible Audiobooks > Language Instruction > Other Languages

Customer Reviews

This is an excellent series of stories to build your Arabic vocabulary. The stories are interesting and the vocabulary is repeated which makes memorizing it easier. Now the availability of the audio of the first three volumes hugely increases the value of the books. Let us have more in the series, Professor Khorshid!

These are great stories with adult themes, so that adult learners don't feel like they're just reading kids' books. He repeats vocabulary well and really manages to cement tough grammatical distinctions in your mind. I highly recommend all of the books in this series.

Book 3 seemed a bit intimidating before I read books 1 and 2. It has smaller text with many more words per page, but it builds so well on the foundation laid by the first two books that I found myself easily able to move through it after the first two books. Definitely recommend the whole series but beginners will want to start at level one.

Many stories in this book gives false image about Islam, Muslims, and Western world. I am Asian, and I lived in America for 20 years and I have lived in Arabic countries for years. I interact with many Muslims so I understand their religion and culture. This book tells everything related with Islam and Muslim is good, and everything related with Western world is bad. This book is good to learn the Arabic language, but I don't understand why the author wrote stories that way. Sahlawayhi 2 even tells that "American president is crazy". This book is too political and too religious for non-Muslims readers. I got upset many times while studying this book.
