Customer Reviews

Needed for trumpet instruction. A must have for your trumpet music library. Recommend that your students purchase a copy as well. Brass players, especially trumpet players, can never get enough of this type of playing. It is nice to have a variety of exercises to play to keep things interesting.

I had this book years ago and realized that I really missed it! Really gets the air moving and helps focusbreath support.

You'd think these exercises would be boring. They're not. I'm using them for warm-ups and to finish up my practices. For full disclosure, I am a returning horn player, coming back after 40 years.

Required by his teacher.
