The Franklin Cover-up: Child Abuse, Satanism, And Murder In Nebraska

Synopsis

The shut-down of Omaha, Nebraska's Franklin Community Federal Credit Union, raided by federal agencies in November 1988, sent shock waves all the way to Washington, D.C. \$40 million was missing. The credit union's manager: Republican Party activist Lawrence E. "Larry" King, Jr., behind whose rise to fame and riches stood powerful figures in Nebraska politics and business, and in the nation's capital. In the face of opposition from local and state law enforcement, from the FBI, and from the powerful Omaha World-Herald newspaper, a special Franklin committee of the Nebraska Legislature launched its own probe. What looked like a financial swindle, soon exploded into a hideous tale of drugs, Iran-Contra money-laundering, a nationwide child abuse ring, and ritual murder. Nineteen months later, the legislative committee's chief investigator died - suddenly, and violently, like more than a dozen other people linked to the Franklin case. Author John DeCamp knows the Franklin scandal from the inside. In 1990, his "DeCamp memo" first publicly named the alleged high-ranking abusers. Today, he is attorney for two of the abuse victims. Using documentation never before made public, DeCamp lays bare not only the crimes, but the cover-up - a textbook case of how dangerous the corruption of institutions of government, and the press, can be. In its sweep and in what it portends for the nation, the Franklin cover-up followed the ugly precedent of the Warren Commission.

Customer Reviews

I first saw the accusations in the book on a half finished Yorkshire television documentary that never

made it to television. The allegations were so horrific in the film; it near enough reduced me to tears. So shocked at the material in the film I had to read the book. Sadly the book documents episodes that are far more disheartening than the film did. A telling feature about this book is the clear cut reputation and standing of its author and the circumstances behind his involvement in the story. Of all the dodgy conspiracies and tall tales circulating today, none is more compelling, possible or disturbing as this and moreover the tide of evidence would suggest the author is telling the truth. This book stands up like no other as it accuses figures of complicity in actions that are virtually libellous. Yet has faced no litigation action, except one case where the author won. And another case where his client's abuse and mental anguish was recognised by the court that tellingly was late in the 1999's in relation to a figure central to the story. Not to mention the original court case that's central to the book, in relation to Larry King. (this is all public record now.) I cannot stress how important this book is, it remained fresh in my mind for weeks. This is one book that has to be read, if you're American the material in this book would shock you. I watched a recent episode of Oprah about missing children in America in which a statistic was used which shocked me. 2,000 children go missing in the United States every single Day!!! That links to this book in so many ways, an absolutely terrifying, yet fascinating read.
