I am a huge Ludovico Einaudi fan. As a piano student, I first heard Divenire, and was hooked. I have recently been playing his music as a huge playlist for hours on end during study time and just regular reading time as it is so relaxing, so I begin searching for the sheet music, being a piano student, and then I found this book, which reflects the very best of Einaudi. It has all the main songs in it, or his most popular, such as Divenire, I Giorni, The earth Prelude, Nuvole Bianche, Primavera, and Ancora. It has 19 songs in all, and If you wish to preview how they will sound, go to youtube and search Einaudi Islands and click on one of the 1hr+ videos to listen to the Playlist of all the songs included as performed by Einaudi. It is exquisite.I ordered this book, and almost canceled my order because it was on backorder and I felt I was buying the book for just two or three songs. The day I went to cancel, It said it had shipped, which was such a blessing because I cannot imagine my piano library without this book. This book seems to be written NOTE for NOTE as the true versions are. So the songs sound exactly like he plays it, not a simplified version. It is perfect for an intermediate to Advanced pianist. These are challenging songs, with the hardest seeming to have

four flats. There are about five or so in key of C, which will be perfect for more intermediate players. Evenstill, while some pieces are challenging, even for me and I have 11 years of lessons under my belt, this book has made me accelerate my performance. The area in piano that I lack the most in has always been adding notes in the left hand. I would play perhaps four at the most per measure and would never play the left hand exactly like it was written.
