Kwanjangnim Original Haidong Gumdo is a unique book as it discussed a martial art that does not receive much coverage, Haidong Gumdo. However, this book is not the definitive guide to the martial art and is indeed a very basic book that could have been a magazine article. The actual English part of the book is about 60 pages in big type. I read the book in about half an hour, not because I could not put it down but because there was not much content. Most of the book's first pages are about how the author commenced Haidong Gumdo and achieved a black belt in what seemed a very quick time. I felt that this section was over done as it did not really contribute to an

understanding of Gumdo. In a longer treatment of the martial art it would make a nice introduction but in this thin account it was overblown. I was very disappointed in that this book had no information about the Haidong Gumdo forms. It is not possible to learn a martial art from a book but I was interested in finding out what Haidong Gumdo looked like and that was really why I bought the book. If that is why you want to purchase this book then forget it; there was not a single mention of any Haidong Gumdo form or kata. No pictures, no written description. The history of Haidong Gumdo received a light treatment. Research seemed to be a search on the net, or more particularly the website of the World Haidong Gumdo Federation. The author claimed to be fluent in Korean but there did not appear to be a single Korean language source used for the book. A quick search on the internet, and in particular Wikipedia, showed that Haidong Gumdo has a controversial history. Its claim of an ancient lineage is widely disputed and the author did nothing to counter those criticisms.
