## Customer Reviews

Added this book after buying the first 2 versions. These are the ones used by our child's instructor and our child seems to be able to read them well. Good training material for a more advanced player. Note: this is not a good book for beginners, but the title should already make that obvious.

This is the book my son's trumpet teacher recommends, and I have to say that we've found it to be a solid program, better than the Essential Elements my daughter used for flute. In addition, by the time you get to this third book, you're further ahead than with Essential Elements.

Exact book needed for band class.

It was needed for school.

Great Band Method.
