Customer Reviews

This is the perfect book for a total beginner. I started piano lessons only 2 months ago with no previous piano or reading music knowledge. I'm not at a point yet where I can just open the book and start playing but I am able to clearly understand the notes and with time and patience and lots of failed attempts I'm actually able to play the songs now. At the same time as purchasing this book I also bought a few other piano sheet music books for "beginners" but none of them are as basic as this one. Bottom line - if you are a beginner then this is the book for you. And as a bonus, the music included in this book is great.
