ROCK BASS LINES CD/PKG BERKLEE PRESS

Synopsis

(Berklee Guide). Learn the art of creating solid rock bass lines! Whether you're an aspiring or a seasoned bass player, this workshop will help you play with attitude and confidence. It contains a gold mine of riffs and lines found in your favorite rock tunes, exercises to help you develop your own rock bass lines, and strategies for locking in with the drummer and making your line groove. Play along with the killer tracks on the accompanying CD in eight different rock styles.

Customer Reviews

I found this to be a quick and easy guide. Many instructional books are filled with a lot of extra information and never get to the point. In "Rock Bass Lines" I was able to get right to the heart of playing. The CD provided was exceptional in that it played each song four times. In this way I was able to hear the song with and without the bass line. It is really an incredible teaching tool. I plan on purchasing other editions by Joe Santerre.

This book is all about playing rather than learning scales and theory. Starting off with simple 4 to the bar stuff and builing up to quite complex bass lines at the end. Lots of practice pieces and a CD to hear what it's like. Good primer for practice, but not a system on it's own. This is practice material for Grade 1 up to about Grade 5.

Great book for us beginners! Starts with some simple groove lines(the most important trait in a bass

player). It gets rhythmically challenging pretty early into the book. Well into the book and the joe's primary focus is still on groove'n

Excellent book for bass students

Good teacher + nice explanation + many examples = A GRRRRREEEEAAATT BOOK TO LEARN AND PRACTICE!!!!.
