Customer Reviews

If you are just getting in to crowd funding, this book will help with your research. It is easy to follow and does offer ideas that will come in handy. It is also useful from a planning perspective.I must admit that I was a bit shocked when I turned the page and saw the pic of the à œBDMâ • at the end!
LOL

Nice introduction to crowd funding. This was a short book that gives basic advice for a crowdfunding

virgin such as myself. There are some nice little gems of information in here that gave me some inspiration. I get the impression that the author genuinely wants to help and will offer further advice should you wish to reach out. He does actually provide contact details as well.

This is a good reference and should be viewed as complementary to your research. This eBook should not be viewed as a standalone. I picked up a few nuggets from it so I got what I smarted but it did fall a bit short in terms of overall content compared to other crowd funding eBooks. I'd recommend

Researching Crowdfunding and I found this book. Was a good, fast read, with lots of helpful insight. Best part - I contacted the author, and as stated in book - this individual WILL get in touch with you. Frankie Johnnie is helping me build my Crowdfunding Campaign, and it will be a WINNER!

This book made crowdfunding make sense to me. I like the way the author broke down crowdfunding and enables the reader to see everything that's good and not so good about crowdfunding.
