Patty has done an amazing job consolidating what must have been weeks, months and possibly even years of research into one handy place. It's well organized, easy to read, understand and implement. Not only did she read the research, she implemented the research and tells you what worked well and not so well. There are lots of crowdfunding 101 websites out there, workshops, seminars and even conferences devoted to telling you how to crowdfund. Some of them are even free resources, but save yourself the time of compiling all of that information and do a favor to yourself and your campaign by reading through this book first!
